## The News Caught in its Own Trape Bogus vs. Record Evidence.

We did not doubt that the zeal of the Nea outran its discorption when it demanded of us the proof" that Mozers, Kilboorn, Jenkins, Habler &c., -all its personal and political friends-were the prominent actors in the "Bribery and Corruption" of 1856, and the parties who allotted and distributed the "Corruption | 1856, will deny the justice of our conclusion. bonds." That "proof" was at hand in the testimony of Messie, Kilbounn, Jennine & Co., themselves, as embodied in the Report of the Investigating Committee. We cited these gentlemen to the stand, copied what they swore to, and rested the case. How does the News reply for the defence? Why, by ignoring the testimeny of its own witnesses, and asking the public to undisputable "proot" which the Sentinel pub-credit its unsupported and notoriously felse assertions against the record evidence published

Let us particularize. The News, convenient: oblivious of all that part of Messra, Killburn's and Jeweins' testimony, showing by whom and under whose direction the "Corruption Bonds" were allotted and distributed among the members of the Legislature, copies from Mr. KILBOURN'S evidence this patagraph merely:

This was the proposition which was finally dopted by the advice of our friends and consent of the members of our company present; that if the bill should pass, granting the land to the La Crossa company, that company would tender for the acceptance of all members vating for it, \$10,-000 to each senator, and \$5,000 to each member of the assembly, &c.

ted shout of triumph, and proceeds in this

This statement was doubtless true, and is admitted to be so by the Sentinel. But what friends, what members of the company were then present? The question is prepart, and the answer will solve ail doubt, if any exists as to who advised and consented to the scheme which the Sentinel now denounces. The friends who advised, and the members of the company then present who consented were Ruius King Alexander Mitchell, A. D. Smith, J. C. Mills. C. L. shoies, C. C. Clement.

All prominent Republicans, all residents of this District, and supposed to be able to control the Governor and the "smaller fry" of Republi-

"proposition," they were not to be found in Ro- faith that they grant these indulgences, publican renke. In short, this "revelation" of the News is a whole-ale fabrication.

Of course, the Ases follows up its first lie with "more of the same sort." Here is its sec-

So too, was his colleagic, Da Mills, of Walworth, and it is illustrative of the whole drift and character of the News' article, that while it states the admitted fact that Dr. Mill "consulted with Judge Portan as to of our Millers also informs us that what is now the propriety of retaining" the bonds sent bim, known as "Rio Grande" Wheat-which is well it suppresses the equally well known fact, pub- spoken of-is a new importation of Canada Club liebed in the same letter to which the News re- and nothing else. We do not, however, accuse Potter himself of any direct participation in the fund. He managed the whole affair very afterity, so far as he was individually concerned. But it will be impossible for his friends to escape what the Scaling terms "the officer of the transaction." Mr. Perran's "Republican friends" can doubtless take care of themselves. They are not now in question. Mesers, Potter and Brown are the candidates belore the People. Mr. Potter, "Democracy." On the other hand, Mr. Brown, the News' candidate, received \$52,060 in bonds, and the Convention by which he was put up had \$355,000 in bonds .--Can words add anything to the force and sig nificance of this contrast?

In conclusion, the News hypocritically "regrets" that it has been "compelled to state the real facts of the case." Its so-called "facts" are tice of popular sovereignty, in its true significance, and all, deliberate, wanton and unblushing cace, his interference in the affairs of the lillancia, lit has "always adverted to the subject relactantly." It had no "reluctance" to "advert to," and dwell upon the subccs, while "Baserond" and the "Black Repubcan Legislature of 1856" were the theme of it: daily philippies; but the topic becomes exceedigly distasteful when the tables are turned, and BERIAH BROWN, KILBOURN, HADLEY, BARSTOW, FALVEY, STRONG & Co., become the prominent figures on the canvass.

It has "no disposition to bandy epithets with the Sentinei." We shall believe that when the News abandons the practice. "From its first issue after the nomination of Mr. Brown, it (the Sentinel) has daily toomed with articles, disigned to asperse the character of our candidate." If the articles in the Santinel have that offect, it is because the facts stated in regard to Mr. Brown, and which cannot be and have not been gainsayed, are damaging to his "character," have indulged in no epithets, imputations, or aspersions against Mr. Brown. We have spoken frankly of his personal merits, as of his political delinquencies. We have stated that he eccived \$52,000 of La Crosse bonds as his share of the Land Grant spoils in 1856, and that there was just as much "corruption" in the alrangenent under which Mr. Brown received this emport, as in the allotment, and distribution of some \$600,000 "in bonds" among Members of mend all the niggers in Christendom to keep a the Legislature. ### Budge Bunn's Apologists,

The organs of the Sham Democracy are sorely euzzled to explain away Judge Duan's Know-Nothing proclivities, as manifested in his course in the Constitutional Convention. The News, while admitting the Judge's original sin, sets up the pica that he has repented and new "acquiesces" in the law allowing foreign-born elector to vote. The Argus, with its customary disre gard of truth, takes a bolder course, and thus intimates that Judge Dunn's opposition to this law, was matter of opinion merely, and not of action. The Argus says:

And thereupon the News sets up a well effected about of triumph, and proceeds in this rain:
